

Imaging Expert

RHAPSODY '23

Step into a world where the invisible becomes breathtakingly visible. Nano Art is an artistic ode to the intricate landscapes that exist beyond the limits of the human eye. This competition invites passionate scientists, researchers, and artists to explore the aesthetic potential of microscopy images capturing the wonders of nanotechnology, materials science, and life at the tiniest scales.

Participation Guidelines:

- Entrants must submit high-resolution microscopy images capturing the essence of the nanoscale world.
- Images should be accompanied by a brief description of the subject, imaging technique, and its significance.
- Submissions will be evaluated based on artistic creativity, scientific relevance, and overall impact.

Important Dates:

- Submission Deadline: 10-10-2023
- Judging and Selection: 11-10-2023 to 12-10-2023
- Winners Announcement: 13-10-2023
- Award Ceremony and Exhibition: 15-10-2023
